C. RATIONALE OF THE SCHEME

The reasons and circumstances leading to and justifying the proposed Scheme (as defined hereinafter) of the Transferor Company with the Transferee Company, which makes it beneficial for all the concerned stakeholders, including shareholders, creditors, and employees of the Transferor Company and Transferee Company, are as follows:

(i) The Transferor Company is a wholly owned subsidiary of the Transferee Company. Both the Transferor Company and the Transferee Company are engaged in substantially similar and complementary lines of business, with their principal objects encompassing the manufacture, recycling, refining, processing, recovery, trading, import and export of ferrous and non-ferrous metals, batteries, e-waste, plastics and allied products. The proposed Scheme of Amalgamation is intended to integrate the business operations of the Transferor Company with those of the Transferee Company under a single corporate entity.

(ii) The proposed Scheme will result in the consolidation of the business, assets, liabilities and operations of the Transferor Company with those of the Transferee Company, thereby simplifying the existing corporate structure and eliminating the need to maintain a separate wholly owned subsidiary undertaking substantially similar business activities. The amalgamation is expected to reduce administrative, operational, regulatory and compliance costs, eliminate duplication of functions and inter-company transactions, and facilitate more efficient management of the combined business.

(iii) The amalgamation will enable the optimal utilisation of manufacturing facilities, infrastructure, technology, financial resources and human capital, while facilitating economies of scale, improved procurement and supply chain management, streamlined business processes and enhanced operational efficiencies. It is also expected to strengthen the financial position of the Transferee Company, optimise capital allocation and provide greater operational flexibility to pursue future growth opportunities.

(iv) As the Transferor Company is a wholly owned subsidiary of the Transferee Company, the proposed Scheme will not result in any change in the shareholding pattern of the Transferee Company. The amalgamation is therefore expected to simplify the corporate structure, improve governance and operational efficiency, and create long-term value for the shareholders and other stakeholders of the Transferee Company.

(v) Overall, the amalgamation is expected to enhance operational and financial efficiencies, strengthen the competitive position of the combined entity and create sustainable long-term value for the shareholders, customers, employees, creditors and other stakeholders of both companies.
